MARK-UP INSPECTOR

Quickly load in a drawing, mark up the dimensions and enter the equipment details. When complete, at the click of a button, this can be exported straight to excel or pdf. The mark up software includes various sizes, colours and shapes to identify different features.

A simple double click adds the balloon to your drawing in sequential order, easy to move position
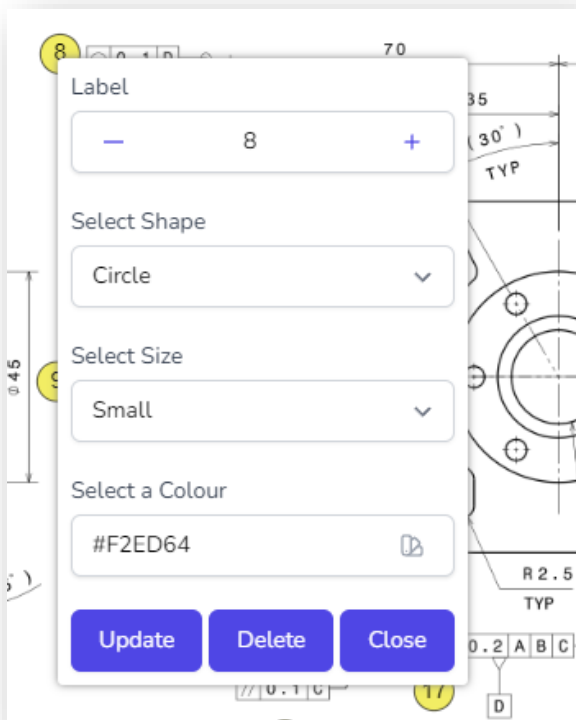

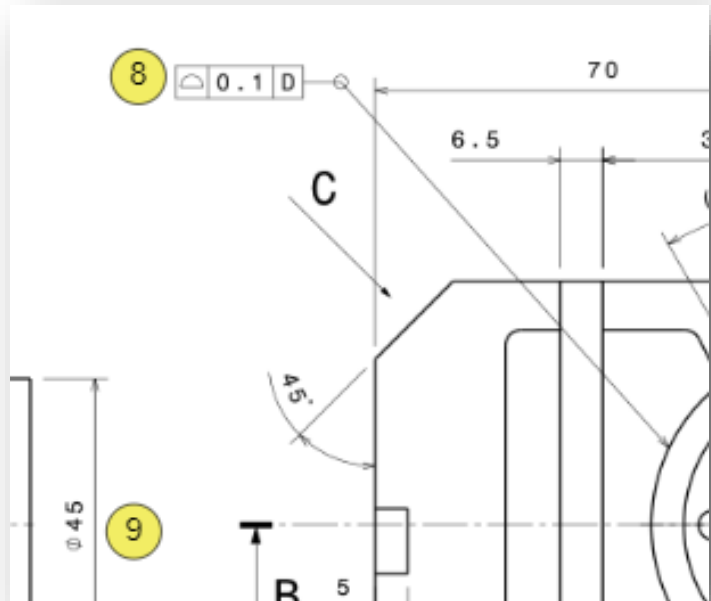

Easy to edit, the setting is then remembered for sequential balloons.

Chose from a range of shapes, colours and sizes
